Phone Main 8458 and 8459

To Holders of 5 Per Cent First Mortgage Gold Bonds of the City & Suburban Railway of Washington:

This Company is without funds to pay the interest due August 1, 1919, on the above bonds, amounting to \$1,750,000. Its earnings for the six months ending June 30, 1919, have been insufficient to meet actual costs of operating and maintaining its property, without allowance for depreciation and damage

reserves and without any return upon investment. On July 9, 1919, a petition was filed with the Public Utilities Commission of the District of Columbia for authority to charge a seven (7) cent fare and to discontinue all transfer and through routing arrangements with other connecting companies, and it is hoped the Commission may take early favorable action on said application, so as to promptly restore the Company's earning power and credit and enable it to meet its obligations.

It cannot, as usual, turn to the Washington Railway & Electric Company (the parent Company) for assistance, on account of the present financial condition of said Company, brought about by insufficient earnings.

City & Suburban Railway of Washington By A. M. FISHER, Treasurer.

Washington, D. C., August 1, 1919.
